Topclass Solar

Alcad batteries how much

Alcad batteries how much

ALCAD Single Cell LCE / LB NiCad Battery (High Energy)

The Single Cell LCE/LB NiCad battery range has the thickest plates and is designed for applications where the battery is required to provide a reliable source of energy over relatively long discharge

Alcad Nickel-Cadmium Batteries

Alcad batteries support a wide range of industrial and commercial applications. These batteries are most suited for engine starting, switchgear, UPS, process control, data & information, emergency lighting,

Eastern Copperfields Trading, Inc

Today they offer the widest range of high quality nickel-cadmium batteries available throughout the world. Alcad batteries are manufactured to ISO 9001 and all Alcad single cell ranges exceed the

Alcad_Corporate brochure_20250130

Alcad LTD offers an extensive range of advanced battery systems, designed to deliver power, safety and reliability. Alcad's unrivalled advantages are: cutting-edge technology products, global reach of

Industrial Batteries , Alcad Batteries , Nickel-Cadmium Batteries

Alcad manufactures nickel-cadmium batteries in ranges corresponding to specific operating conditions and providing different performance characteristics. These are used in all types of industry, often

XHP NiCad battery range

XHP Ni-Cd batteries are designed for applications such as vital UPS, engine starting and emergency back-up duties requiring guaranteed power in an instant. The sintered positive plates, compact

Solar NiCad battery Range

Alcad Solar Ni-Cd batteries provide continuity at any state of charge, but they also reach a high state of charge without boost or reconditioning charges, greatly simplifying the complex task of managing

ALCAD Slim Nickel Cadmium Battery

Slim is the new maintenance-free* nickel cadmium battery in the Alcad range. Slim delivers high-energy performance in a space-saving module design with a robust Ni-Cd battery construction and a unique

Single Cell Range

The Alcad battery is designed as a twenty year life product, but as with every battery system, increasing temperature reduces the expected life. However, the reduction in lifetime with increasing temperature

ALCAD Slim NiCad Battery Range (High Energy Stationary Applications)

ALCAD Slim NiCad Battery Range (High Energy Stationary Applications) is the new maintenance-free* nickel cadmium battery in the Alcad range. Slim delivers high-energy performance in a space-saving

Single Cell HC/HB NiCad battery

This nickel cadmium battery is designed for high current demand over short periods typical of starting and UPS applications. The Single Cell HC/HB Ni-Cd battery range uses very thin plates and is

Eastern Copperfields Trading, Inc

ALCAD have nearly 100 years experience in the development and manufacture of pocket plate cells and batteries. Today they offer the widest range of high quality nickel-cadmium batteries available
