OverviewAutomotive fuel cell cooperationsHistoryOther activity areasAchievements

On February 1, 2008, Ballard spun out Automotive Fuel Cell Cooperation (AFCC) to allow for further expansion of fuel cell technology. After the split, Ballard continued as a publicly traded company focusing on non-automotive applications (including buses), while AFCC became a privately held company of 150 employees, developing hydrogen fuel cell stacks for automobiles. AFCC's initial ownership split was Daimler AG (50.1%), Ford Motor Company (30.0%), and Ballard itself (19.9%).
