Finding Data to Run HOMER

Time series solar radiation data is most commonly available with an hourly time step, but HOMER can accept any time step down to one minute. Two of the best sources of solar radiation data are the

GeoModel Solar Releases Most Detailed Solar Resource Maps for

GeoModel Solar, a leading international provider of solar resource data, online site assessment tools, and expert consultancy, today released a new set of solar maps for South Africa, Lesotho, and

Global Solar Atlas

Welcome to the Global Solar Atlas. Start exploring solar potential by clicking on the map. Select sites, draw rectangles or polygons by clicking the respective map controls. Calculate energy production for

Truth About Geomodel solar. Is Geomodel solar the Right Choice?

Trustburn is the best place to read candid reviews from real customers about Geomodel solar. Get a comprehensive view of the company, from pricing and customer service to product

quality and more.

Alternative Energy Company

Primary business of GeoModel Solar is in site qualification, planning, financing and operation of solar energy systems. We are committed to increase efficiency and reliability of solar technology by

Solargis :: purchase

In this section you can order and purchase various data and licenses for Solargis applications. You will be interactively guided through this process in a few steps. Each step represents a new screen. In

GeoModel Solar Introduces New Satellite-Based Solar Resource Data

GeoModel Solar, a leading international provider of solar resource data, innovative photovoltaic simulation tools and expert consultancy, extended the geographical coverage of the

GeoModel Solar Launches New Generation Online Tools for Solar

From now planning of solar power plants and photovoltaic systems in the Middle East and North Africa is easy, fast and accurate as never before. GeoModel Solar, a leading international

GeoModel Solar s.r.o.

The Company builds on 20 years of expertise in geoinformatics and environmental modelling, and 10 years in solar energy and photovoltaics. We strive for development and operation of high-resolution

SolarGIS: solar and meteo data and online applications for PV

About GeoModel Solar Expert consultancy: o Solar resource assessment and meteo databases o PV yield assessment and performance modeling Development and operation of SolarGIS meteo

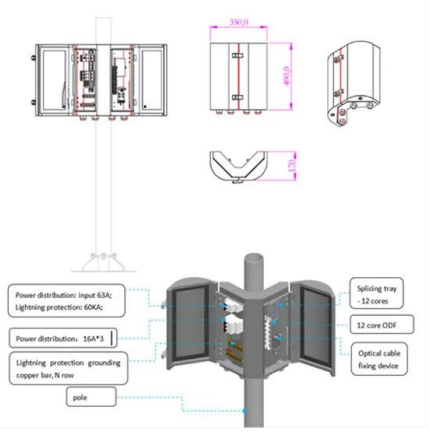

GeoModel Solar Launches New Generation Online Tools for Solar

GeoModel Solar, a leading international provider of solar resource data, innovative photovoltaic simulation tools and expert consultancy, launched, at the occasion of World Future

Solargis s.r.o. , Devex

Solargis (formerly GeoModel Solar) offers weather data, online tools, and consultancy for accurate and efficient solar energy assessment. Our solutions help the solar industry reduce project

GeoModel Solar s.r.o.

Mission and objectives Primary business of GeoModel Solar is in site qualification, planning, financing and operation of solar energy systems. We are committed to increase efficiency and reliability of

Secaucus Environmental Department

This is a free service and can help residents understand the incentives and programs available to purchase and finance solar panels as well as understanding the savings on energy costs.

Global Solar Atlas

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general
