Electrical enclosure

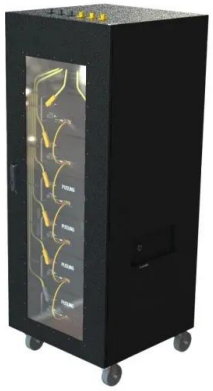

Overview

An electrical enclosure, power box (US), or feeder pillar (UK), is a cabinet for electrical or electronic equipment to mount switches, knobs and displays and to prevent electrical shock to equipment users and protect the contents from the environment. Internationally, 60529 classifies the (ingress protection rating) of enclosures. Electrical enclosures are usually made from rigid plastics, or metals such as steel, stainless steel, or aluminum. Enclosures for some purposes have partially punched openings (knock-outs) which can be removed to accommodate , , or.

Electrical enclosure

Electrical Enclosures & Outdoor Electrical Boxes
