EnviroMission Limited is currently designing a 200-megawatt solar thermal power plant in Australia. The solar facility will use EnviroMission's innovative Solar

EnviroMission reemerges with a new mission , AltEnergy

Well this was a blast from the past. AltEnergy, then known as RENergy, was writing about a company called EnviroMission in the early 2000s. At that time the company was ASX-listed with the code EVM

EnviroMission reemerges with a new mission , AltEnergy

At that time the company was ASX-listed with the code EVM and its mission was to build solar towers in Australia and the USA. The proposed solar towers were of a futuristic design working by solar

EnviroMission Ltd

The Solar Tower is unique in that it does not require any fuel or water to operate, making it a truly sustainable and renewable energy source. EnviroMission's Solar Tower project has received

EnviroMission

EnviroMission (ASX: EVM) is an Australian company founded on 2 November 2000 as an Australian public company. It has, since 2001, proposed to build a solar updraft tower power generating station known as Solar Tower Buronga in western New South Wales at a site 25 km northeast of Mildura. As of 12 February 2007, EnviroMission claimed to be conducting feasibility studies to build a tower or towers in Texas. None of these projects have progressed beyond the planning stage.

EnviroMission's Solar Tower Pilot Plant

EnviroMission, which owns the global license to Solar Tower technology (excluding China), has shifted its development focus to the South West of the United States of America .
