Four days into war with Iran, at least one of the United States' Gulf allies is already running low on crucial interceptor munitions used to defend against Iranian missile and drone attacks, two

Self-propelled artillery

OverviewHowitzers and gunsHistoryMortarsRockets and missilesSee alsoSources

Self-propelled artillery remains important in the equipment of many modern armies. It saw a significant role throughout the Cold War era conflicts and in the 1991 Gulf War. Modern SP artillery is highly computerized, with the ability to self-survey firing positions using systems such as GPS and inertial navigation systems. This, in conjunction with digital fire control/ballistic computers and digital communications, allows individual gu
