Suzlon

Tulsi Tanti was a Gujarati businessman managing a small textile company. Due to the erratic availability of local power and its rising cost, the highest business expenditure after the raw materials was electricity. Tanti ventured into wind energy production as a way to secure the energy needs for his textile company. After commissioning two wind turbines, Tanti discovered that wind energy was an even better business than textiles and founded Suzlon Energy. It set up its first manufacturing facility at Diu. In 1996, Suzlo
