Wing energy

China was already a wind energy superpower. Now it's testing giant

Read the full piece on CNN or enjoy below: ? Driving the news: China is testing giant airborne wind turbines that float thousands of meters above the ground to generate electricity o

GE Vernova to Supply 17 Turbines for Italy Fortore Wind Farm

GE Vernova has been awarded a contract to provide 17 onshore wind turbines for a new wind energy development in Fortore, Benevento, Italy. The installation is expected to deliver an output of more

Japan's Largest Offshore Wind Farm Begins Operations at 220 MW

Japan's largest offshore wind facility, the 220 MW Kitakyushu Hibikinada Offshore Wind Farm, has begun commercial operations. Developed by a consortium including J-POWER, the

Google Data Center in Minnesota Would Be Powered by Wind, Energy

Minnesota Power has signed an electric service agreement (ESA) with Google for the energy needed to power a 700-MW data center project in the state. The companies on March 3 said

From Oil to Wind Power: Germany Surpasses 10,000 MW Offshore

From Oil to Wind Power: Germany Surpasses 10,000 MW Offshore Capacity - North Sea Becomes Europe's Energy Hub Münster (Germany) - With the official commissioning of new offshore wind

Wing Energy

We are a team of renewable energy engineers who help homeowners and local businesses with Solar Panels, Battery Storage, & EV Charger installations. As an accredited company, we provide tailored

Nuclear, onshore wind cheapest way to meet Sweden's electricity

Expanding nuclear and onshore wind power is the cheapest way for Sweden to meet surging electricity demand, leaving no place for offshore wind, the OECD's Nuclear Energy Agency

China's offshore wind companies seek a Europe foothold

Chinese wind power blows in China's wind power sector is a global leader, accounting for almost 80 gigawatts (GW), or about 70% of the 109 GW of new onshore wind power installed in

Portugal-based Greenvolt secures financing for two wind projects in

Portugal-based Greenvolt, owned by US investment fund KKR, has secured a EUR 348 million financing package for the 253.1 MW Ialomita Nord wind power project under construction in

What Is Wind Energy and How Does It Work?

Wind energy captures the kinetic energy of moving air and converts it into electricity, and it has grown from a niche technology to a central part of many countries' clean energy strategies. As

Pregis Expands Wind Energy Use, Advancing Progress Toward Net

For additional detail on Pregis climate strategy, renewable energy use and progress toward net zero, view the 2024 Sustainability Report here. About Pregis Pregis LLC is an innovative,

Adani Green Energy Commissions 185 MW Wind Power Project at

Adani Green Energy Limited (AGEL) has announced the commissioning of a 185 MW wind power project at Khavda in Gujarat through its wholly owned stepdown subsidiary, Adani Green
